

Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory can automatically activate to both unload and release as the bumper release touches the side of a dumpster. When dumping is completed, the hopper can go back to original upright and locked position. This particular piece of equipment even comes together with a cable that allows operation from the seat of the forklift to be able to have the choice of manually unloading the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
