

Rockwell Part

Rockwell Parts - AxleTech International is a premier supplier in the globe of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for delivery, quality, service and technology. They believe in working in an environment that encourages the utmost integrity with empowered collaboration, along with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious business and offering a safe surroundings for their staff to work in. Also, they have implemented a lot of programs within the company to be able to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, since they are glad to share and promote this policy with a greater understanding of their efforts. They are very committed to improving and preserving the surroundings. AxleTech has an EHS program which not just protects the natural world but which also actively protects their neighbors and staff too.

AxleTech specializes in the manufacture and designing of planetary axles used for both commercial and military applications, which could include anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider as well. AxleTech particularly designs axles to meet specific application demands. They have more than 1000 different axle specs within their existing offering. With more than 100+ years of history and skill, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in many military and commercial applications. They provide complete axle assemblies used for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have further details that can be seen in the "ISAS" product collection.
