

TCM Forklift Part

TCM Forklift Parts - In the international industry of material handling, lift trucks play an important role for transporting industrial goods. Primarily innovated as industrial vehicles during the 1930s in the United States, lift trucks gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machinery spread worldwide.

In nineteen forty nine, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the business is simply known as TCM Corporation. Over the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the industry. TCM started building lift truck manufacturing sites outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes numerous models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products used and recognized all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading company.
