Clark Totalift has a really outstanding international support network. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark has a unyielding objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the extremely economical and advantageous system of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most effective method of production plant stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The new value engineering agenda combines progressive product development and delivers improved customer support and service within the industry.
